

Following King Richard's death in France, archer Robin Longstride, along with Will Scarlet, Allan A'Dayle, and Little John, returns to England. They encounter the dying Sir Robert Loxley, whose party was ambushed by treacherous Godfrey, who hopes to facilitate a French invasion of England.

Robin promises the dying knight he will return his sword to his father Sir Walter Loxley in Nottingham. Here, Sir Walter encourages him to impersonate the dead man to prevent his land being confiscated by the crown, and he finds himself with Marion, a ready-made wife.

Hoping to stir baronial opposition to weak Prince John and allow an easy French take-over, Godfrey worms his way into the Prince's service as Earl Marshal of England and brutally invades towns under the pretext of collecting Royal taxes. Can Robin navigate the politics of barons, royals, traitors, and the French?

Robin Hood can be streamed on AMC or rented on Amazon Prime or You Tube.
